Sir:

INTRODUCTORY COMMENT

It is respectfully requested that the above-referenced application be returned to the Examiner for consideration and entry of the following amendment:

IN THE SPECIFICATION

Kindly amend the specification as follows:

Page 13, paragraph [0035]

[0035] For a wafer 30 shown in Fig. 1A having a diameter identical to the diameter M3 of the wafer 130 shown in Fig. 2, the diameter M1 of the insulating plate 120 shown in Fig. 2 would preferably be larger than the diameter L1 of an insulating plate 20 in Fig. 1A 2. Thus, the distance spanned by the plurality of induction coils 114 shown in Fig. 2 would be greater than distance spanned by the plurality of induction coils 14 shown in Fig. 1A.
